

Testimonial from a Local Authority Social Worker

SWAN Fostering foster carers exceeded all expectation in their role as foster carers to **A**. Their consistent dedication to **A's** welfare goes beyond the end of **A's** placement as both carers have expressed an interest in maintaining communication with **A** and offering ongoing support if she should need it.

Contact is often a difficult part of the care plan to fulfil with carers that are not able to or are not committed to facilitating it. SWAN Fostering's foster carers were instrumental in ensuring that **A** had contact with her family and organising and facilitating additional contacts with her siblings.
