

Testimonial from a Looked After Child placed with
SWAN Fostering Foster Carers

I love living with my foster carers because they are really nice to me and I like living in the area where they live because I have a lot of mates there and my school is near home.

I go to Friday club with my mates and they are good cooks!

I feel happy with my carers - please can I stay here (forever!)

My carers have nice pets - 2 dogs and 2 cats. My carers found me a new football team, and I like to see their grown-up children.
